

# **NOTICE OF FEDERAL ESCALATION AND CONSTITUTIONAL RIGHTS VIOLATIONS**

IN RE: Caleb Retelle

Subject: Formal Escalation of State-Level Custody Proceedings to Federal Jurisdiction

Date: April 14, 2025

To Whom It May Concern:

This document serves as formal notice of my intent to escalate ongoing custody proceedings and related constitutional violations occurring in DANE/WISCONSIN Family Court to federal jurisdiction. This escalation is based on the following: repeated violations of due process, unlawful discrimination against my documented disabilities, failure to enforce lawful custody orders, suppression of evidence, and retaliation following lawful status correction and UCC filings.

## **I. FEDERAL BASIS FOR ESCALATION**

- Violation of the Americans with Disabilities Act (ADA), including failure to honor accommodation requests, resulting in health crises and emotional distress.
- Violation of the 1st Amendment: Suppression of protected speech, retaliation for asserting lawful status, and threats to prevent public discourse about the case.
- Violation of the 5th and 14th Amendments: Deprivation of due process, liberty, and parental rights without equal protection or fair hearing.
- Violation of the 6th Amendment: Denial of right to counsel and cross-examination of witnesses.
- Violation of the 8th Amendment: Cruel and unusual punishment via neglect of medical care while incarcerated (asthma medication denied).

## **II. STATE MISCONDUCT AND EVIDENCE OF RETALIATION**

- Over 200 pieces of lawful documentation and filings submitted to the court have been ignored or omitted from records.
- The opposing party submitted no lawful rebuttals, yet received preferential treatment and enforcement bias.
- Despite CPS instructing me to retain custody for safety, I was punished while the child's safety was endangered under the mother's care.
- Over 17 contempts of court by the opposing party have been ignored without consequence.
- Judicial officers demonstrated bias, led witness questioning, and denied my right to question opposing witnesses while allowing them to question mine.
- I was subjected to false programs and services irrelevant to my case and non-compliant with my disabilities.

### III. PUBLIC AND CONSTITUTIONAL DISCLOSURE

- I will be lawfully disclosing the details of this matter through protected speech, including but not limited to media, podcasts, online platforms, and civil rights forums.
- This disclosure is protected under the First Amendment and shall not be construed as defamation or obstruction, but rather as an act of lawful transparency.

### IV. FEDERAL REQUEST FOR RELIEF AND INTERVENTION

- Immediate review of the family court case under federal jurisdiction due to ongoing harm and constitutional breach.
- Investigation into judicial misconduct, GAL bias, CPS collusion, and ADA violations by court services and jail staff.
- Full reinstatement of parental rights and investigation into the endangerment and medical neglect of the child while under the opposing party's care.
- Relief from state-level retaliation based on lawful UCC filings, trust establishment, and status correction.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Caleb Retelle".
